

The **HEALTHCARE** Choice!

Healthcare offices across America are keeping patients & staff hydrated, happy and healthy with the Pure Water Technology® 3i point-of-use water purification system.

Health & Safety for Your Office Staff & Patients

- **FEATURING CleanContact™** — anti-microbial protection for your healthcare facility. CleanContact technology infuses the touchpad and surrounding surfaces with an organic anti-microbial ingredient.
- **Pure Touch Dispense system** — all features are designed to prevent cross-contamination of germs near the dispense nozzle.

Fresh Clean Purified Drinking Water

- Provide continuous oxygenated water purified by our multi-stage process including ozone disinfection that removes 96% of total dissolved solids (PCBs, chlorine, pharmaceuticals) and harmful bacteria and viruses.
- Cold and hot water options with adjustable temperature control.

Efficiency & Productivity

- No more storing, spilling or lifting of 42 lb. bottles (5-gallon jugs) — keeping your medical facility clean and safe!

Price Protection

- Our all-inclusive monthly price includes yearly service & filter changes.
- We eliminate any hidden fees, such as service, delivery, fuel surcharge and admin.
